

## THE ATRIUM

### Well Protected and Well Entertained.

**Protection:** Through the variable arrangement of several modules, a weather-proof atrium area can be installed between the modules.

**Safety:** By this, up to 150 people can be informed and entertained on an area of nearly 100 square metres without any interference by the weather. In the planning stage is a combination possibility of all modules up to a useful area approx. 250 square metres which provides space for up to 300 people completely weather-proof.

**Information:** At the same time, specialist talks can be held and exhibits inspected in the single modules.
